

## Upload Image to IBM Container

Team ID	PNT2022TMID20166
Project Name	NUTRITION ASSISTANCE APPLICATION

### CREATING REPOSITORY IN IBM CLOUD:

The screenshot shows the IBM Cloud Container Registry interface. The left sidebar contains navigation links: Container Registry, Quick start, Namespaces (0), Repositories (0), Images (0), Trash (0), and Settings. The main content area is titled 'Repositories' and shows a 'Global' location filter. A modal window titled 'Create repository' is open, providing instructions and commands for creating a new repository.

**Create repository**

1. Tag an image to point to this registry. Choose a local image, target namespace, and target repository.  
`docker tag <local_image> icr.io/<my_namespace>/<my_repo>`
2. Push the tagged image.  
`docker push icr.io/<my_namespace>/<my_repo>`

The background page shows a 'Create' button and a 'Last updated' section.

## UPLOAD IMAGE TO IBM CONTAINER REGISTRY:
