# Project Planning Phase

# **Project Planning Template (Product Backlog, Sprint Planning, Stories, Storypoints)**

| Date          | 18October 2022                            |
|---------------|---|
| Team ID       | PNT2022TMID32891                          |
| Project Name  | Project – Nutrition Assistant Application |
| Maximum Marks | 8 Marks                                   |

#### **Product Backlog, Sprint Schedule, and Estimation (4 Marks)**

Use the below template to create product backlog and sprint schedule

| Sprint   | Functional Requirement (Epic)              | User Story<br>Number | User Story / Task   | Story<br>Points | Priority | Team Members               |
|----------|--|----------------------|---|-----------------|----------|----------------------------|
| Sprint-1 | Registration                               | USN-1                | As a user, I can register for the application by entering my email, password, and confirming my password. | 2               | High     | Keerthiga M<br>Lavanya A M |
| Sprint-1 |  | USN-2                | As a user, I will receive confirmation email once I have registered for the application                   | 1               | High     | Keerthiga M<br>Lavanya A M |
| Sprint-1 | Login                                      | USN-3                | As a user, I can log into the application by entering email & password                                    | 1               | High     | Keerthiga M<br>Lavanya A M |
| Sprint-2 | User details                               | USN-4                | The details of the user and the history of the searched food nutritions data will be available            | 2               | High     | Keerthiga M<br>Lavanya A M |
| Sprint-3 | Upload image of the food                   | USN-5                | The user will upload the food image to get nutrition details.   | 2               | Medium   | Keerthiga M<br>Lavanya A M |
| Sprint-4 | Shown the nutrition details and Recipe for | USN-6                | The system will scanned the food image and display the nutritions detail and recipe for related scanned   | 1               | High     | Keerthiga M<br>Lavanya A M |

| Sprint | Functional<br>Requirement (Epic) | User Story<br>Number | User Story / Task | Story<br>Points | Priority | Team Members |
|--------|----------------------------------|----------------------|-------------------|-----------------|----------|--------------|
|        | scanned food                     |                      | food.             |                 |          |              |

### **Project Tracker, Velocity & Burndown Chart: (4 Marks)**

| Sprint   | Total Story<br>Points | Duration | Sprint Start Date | Sprint End Date<br>(Planned) | Story Points Completed (as on Planned End Date) | Sprint Release Date<br>(Actual) |
|----------|-----------------------|----------|-------------------|------------------------------|---|---------------------------------|
| Sprint-1 | 20                    | 6 Days   | 24 Oct 2022       | 29 Oct 2022                  | 20  | 30 Oct 2022                     |
| Sprint-2 | 20                    | 6 Days   | 31 Oct 2022       | 05 Nov 2022                  | 20  | 06 Nov 2022                     |
| Sprint-3 | 20                    | 6 Days   | 07 Nov 2022       | 12 Nov 2022                  | 20  | 13 Nov 2022                     |
| Sprint-4 | 20                    | 6 Days   | 14 Nov 2022       | 19 Nov 2022                  | 20  | 19 Nov 2022                     |
|          |                       |          |                   |                              |   |                                 |
|          |                       |          |                   |                              |   |                                 |
|          |                       |          |                   |                              |   |                                 |
|          |                       |          |                   |                              |   |                                 |

## Velocity:

Imagine we have a 10-day sprint duration, and the velocity of the team is 20 (points per sprint). Let's calculate the team's average velocity (AV) per iteration unit (story points per day)

$$AV = \frac{sprint\ duration}{velocity} = \frac{20}{10} = 2$$

#### **Burndown Chart:**

A burn down chart is a graphical representation of work left to do versus time. It is often used in agile software development methodologies such as Scrum. However, burn down charts can be applied to any project containing measurable progress over time.
